INTRODUCTION

The Freedom of Information and Protection of Privacy Act and the Municipal Freedom of Information and Protection of Privacy Act give individuals a right of access to information held by institutions covered by these Acts.

The Freedom of Information and Protection of Privacy Act applies to Ontario government ministries and agencies. The Municipal Freedom of Information and Protection of Privacy Act applies to municipalities and local boards in Ontario.

In both Acts, there are exceptions to the right of access, but these exceptions are limited to the specific provisions in the legislation. In addition to providing individuals with a right of access to information (including their personal information), these Acts establish standards to ensure that the privacy of individuals is protected.

Part I – Provincial Ministries and Agencies

Part I provides an alphabetical listing of provincial ministries and agencies covered by the Freedom of Information and Protection of Privacy Act. For each of these organizations the following information is provided:

- the title of the head of the ministry or agency;
- the title, address and telephone number of a contact person in each ministry/agency who will assist individuals in making requests under the Freedom of Information and Protection of Privacy Act, and the location where a request should be sent;
- the location of a reading room for the review of manuals and other information.

For provincial ministries and agencies, a Directory of Records is available to assist individuals in locating records and personal information held by government ministries and agencies. The Directory of Records describes the types of records held by ministries and agencies.

The Directory of Records is issued annually and is available for review in libraries ad ministry/agency offices. It may be purchased through Publications Ontario, Main Floor, 880 Bay Street, Toronto, Ontario M7A 1N8.

Part II – Municipalities and Local Boards

The Municipal Freedom of Information and Protection of Privacy Act applies to municipalities and local boards in Ontario.

Part II of this directory lists various local boards alphabetically according to type (eg. boards of health, school boards, police commissions etc.). All municipalities are listed together in alphabetical order. A table of contents on page 29 lists the types of local boards and municipalities included in Part II.

For each municipality or local board the following information is provided:

- an identification of the head of the municipality or local board;
- the address of the Freedom of Information and Privacy Coordinator in each municipality or local board who will receive access requests and assist individuals in making requests under the Municipal Freedom of Information and Protection of Privacy Act.

Part II also contains an index of municipalities and local boards. The municipalities and local boards are listed in the index according to their respective regional municipality, county or district.

Each municipality and local board maintains and Index of Records describing the types of records held by the municipality or local board. This Index of Records will assist individuals in locating records and personal information held by the institution and is available at the municipal or local board's business office.

HOW TO MAKE A REQUEST

In most cases, it is not necessary to apply under freedom of information and privacy legislation to obtain access to an institution's records or to personal information about yourself. Requests for information can generally be made by calling, writing or visiting the appropriate institution's office.

A request under either the Freedom of Information and Protection of Privacy Act (for Ontario ministries and agencies) or the Municipal Freedom of Information and Protection of Privacy Act (for municipalities and local boards) can be made by completing an Access/Correction request form. These forms are available in government offices across the province, or through business offices of municipalities and local boards, and in most libraries. An example of how to complete the form is included at the end of this section.

If an access/correction form is not conveniently available, a letter identifying the information requested and indicating that the request is made under the legislation will suffice.

The completed request form or letter should be forwarded to the institution most likely to have the information. Refer to the Directory of Institutions for the institution's address.

Normally, a request must be responded to within 30 calendar days. This means that the institution must either provide access to the requested information or notify the individual that the information is exempt under the specific provisions of the legislation. If the institution requires a time extension for any reason, then the requester must be notified.

Requesters should provide as much information as possible to assist institutions in identifying the requested records. Individuals who need assistance in locating records or personal information, or in making a request, should contact the Freedom of Information and Privacy Coordinator in the appropriate institution.

HOW TO APPEAL A DECISION

An individual may appeal any decision made by an institution including a refusal to grant access, a refusal to make a correction to personal information or an extension of the 30-day deadline. Appeals should be directed to:

Information and Privacy Commissioner
17th Floor, 80 Bloor Street West
Toronto, Ontario
M5S 2V1
Telephone: (416) 326-3333
Toll free: 1-800-387-0073
Fax: (416) 965-2983

PART I

PROVINCIAL MINISTRIES AND AGENCIES

INTRODUCTION

Ontario's Freedom of Information and Protection of Privacy Act gives individuals a right of access to information held by Ontario government ministries and agencies. There are exceptions to this right but they are limited to the specific provisions in the legislation. The Act also gives individuals a right of access to their personal information and establishes standards to ensure that this information is protected.

This directory provides an alphabetical listing of the ministries and agencies covered by the Act. For each of these organizations, the following information is provided:

- the name and office of the head of the ministry or agency;
- the title, address and telephone number of a contact person in each ministry/agency who will assist individuals in making requests under the Act and the location where a request may be made;
- the location of a reading room for the review of manuals and other information.

A directory of Records is available to assist individuals in locating records and personal information held by government ministries and agencies.

The directory is issued annually and is available for review in libraries and ministry/agency offices. It may be purchased through Publications Ontario, Main Floor, 880 Bay Street, Toronto, Ontario M7A 1N8.
